## **Director's Comments**

As the department continues to focus on its mission to serve young people and their families throughout the Commonwealth, I would like to take this opportunity to thank all DJJ employees for your work in helping to shape a shared commitment through the various initiatives that are being implemented.

Chief among our efforts is the emphasis on training and implementation of our strategic plan for DJJ.

I believe this agency will continue to get stronger in the years ahead and our many dedicated employees are a key reason for this.

Please enjoy the spring season and be safe in all you do with your families over the coming months.

Sincerely,

Barry R. Green  
Director
